WHY HEALTHCARE PROFESSIONALS REFER TO COLORADO SPRINGS AUDIOLOGY

- **Colorado Springs Audiology** is a professional office, not just a hearing aid store. Patients are treated professionally and ethically.
- Patients referred by a health care professional receive a complete and fully qualified hearing exam **but are not charged** – as such, insurance is not needed.
- No conflict of interest – Colorado Springs Audiology is not part of any buying group, franchise or company owned.
- Our office uses the best hearing care products, but our fees **are lower** than most.
- **We clean ears**, and do so for many physicians and healthcare professionals who do not have the necessary equipment in tough cases.
- As a professional audiology clinic, are qualified to provide hearing examinations for OSHA, legal and job requirement purposes.
- We are consistent. Our office has been in existence since 1985 providing excellent services.

If you have referred patients to **Colorado Springs Audiology** – Thank you! If not, please consider using our office. Patients *referred by their physician or healthcare professional* to our office receive a **no-cost hearing examination** with a follow up report to the doctor, nurse or PA so they can review the patient's needs. As such, **insurance coverage is not necessary**. Rest assured, we will not sell hearing aids to patients unless they genuinely need them, and basically, we tend to be fairly conservative in our approach.

Medicare does not cover any part of the cost of hearing aids and most insurance rarely cover hearing aids. Colorado Springs Audiology fees for hearing aids are very reasonable and all costs are posted on my website. For further information, feel free to give me a call.

Kindest regards,

Gene McHugh
